Inspire your network

Encourage suppliers, clients and partners to follow your lead and get accredited. Share the benefits of responsible business and motivate others to raise the bar together. You can share these ideas via newsletters, social media, blogs or other communications to inspire those in your network:

- **Share your responsible business practices:** highlight what works for your organisation and how it benefits your employees, community and the planet.
- **Tell your story:** share your positive experiences, such as improved staff engagement, customer satisfaction or stronger supplier relationships.
- **Promote Good Business Week:** include it in your newsletters to celebrate your achievements and spread the message.
- **Make introductions:** connect us directly to your suppliers or clients by CC'ing info@goodbusinesscharter.com.

Don't forget, if you refer an organisation, you'll receive your next year's accreditation for free, and they'll have their sign-up fee waived!
